

IMPORTANT RESOLUTIONS WERE PASSED

Effecting Quarantine Lines in All Oklahoma.

COUNCIL TOOK RECESS

Then Members All Got Down to Solid Work.

Guthrie, O. T., Jan. 20.—The Oklahoma legislature is still trying to get down to business. The house has come nearest to doing this yet an hour was taken this morning in discussing the rules. The council also took up a great part of the day considering the rules as submitted by the committee.

The council was compelled to take a recess this morning of an hour and a half because of the absence of Alpha Underhill, for fear the Democratic minority might attempt their little trick again, which Dr. Winkler is now credited with thwarting. The principal action of the council was the passing of a joint resolution introduced by J. P. Hickman. This resolution is concerning quarantine lines, and is of the greatest importance. When it was presented to the house it was laid on the table till tomorrow. There promises to be a big fight on it by the Canadian river representatives, as it lays the bar down to the infected cattle from the new country, these persons claim.

The resolution by Mr. Hickman follows: "Be it resolved by the council of the legislative assembly of the Territory of Oklahoma, the house of representatives concurring therein, that:

"Whereas, The secretary of agriculture, by an order issued in the year 1901, by the bureau of animal industry of the department of agriculture, has accorded certain quarantine privileges to the counties of Roger Mills, Washita, Canadian and others, and

"Whereas, It is believed by your memorialists that certain territory in the counties of Lincoln, Payne and portions of other counties lying east of the federal quarantine line, are reasonably safe and free from infection and entitled to the privileges accorded the above mentioned counties, therefore be it

Resolved, That your memorialists request the livestock sanitary commission of the territory of Oklahoma to communicate with the secretary of agriculture for the purpose of securing a joint examination and inspection of the counties of Payne and Lincoln, in the territory of Oklahoma, and such other territory lying east of and adjacent to the said federal quarantine line where it runs along the right of way of the Atchison, Topeka & Santa Fe railroad, and, if said territory shall be found upon said examination and inspection, to be reasonably free and safe from infection or danger to stock, that an effort be made to secure from the secretary of agriculture an order granting the same privileges to the said counties of Lincoln, Payne and other territory as are now granted to the said counties of Washita, Roger Mills and Canadian.

The feature in the house today was a discussion over the American flag. There was an attempt to have Edgar Jones' bill passed as an emergency bill, and although this attempt failed it led to three thrilling speeches on patriotism. Philson Cummins, Edgar Jones and Judge Merriam each gave forth his best efforts in demanding an appealing to the people to make this bill the first law passed this session. The bill will be taken up tomorrow and will undoubtedly pass. There are two other bills of like nature, and so amendments will be made. The bill of Mr. Jones of Logan and the one in all practical parts which will be passed tomorrow, follows:

"House bill No. — by Edgar W. Jones, Sixth district: "An act to provide for the display of the American flag over all school houses and educational institutions in the territory of Oklahoma, and the encouragement of patriotic instruction in the schools of the territory.

"Be it enacted by the legislative assembly of the territory of Oklahoma: "Section 1. That hereafter, in addition to the branches now required by law to be taught in the common schools of the territory of Oklahoma, each and every teacher and instructor shall be, and is, hereby required to teach the lessons of patriotism, love of country and the American flag, and upon application and examination for license to teach school, shall be examined touching his or her qualifications and knowledge along that line as fully and completely at least as the examination upon the theory and practice of teaching.

"Sec. 2. That immediately upon the taking effect of this act it shall be the duty of the district board of every school district in the territory of Oklahoma, the board of education of every city and town in said territory, and the board of regents of every educational institution in said territory, to provide for every school house and every building used as such, and for each and every school building in the said cities and towns, and each and every educational institution or college in said territory, the American flag, and caused the same to be raised over such building the entire day, every school day during the year.

"Sec. 3. That any person, corporation, board of regents, district board, board of education, or other person or persons mentioned in this act, fails, neglects or refuses to comply with any of the provisions of this act shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than one hundred dollars, and not exceeding three hundred dollars, and costs, including an attorney fee of fifty dollars, to be allowed the county attorney for the prosecution of such misdemeanor.

Beecham's Pills

Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla which strengthens the whole digestive system

"Sec. 4. That any person or persons who in any manner shall interfere, or attempt to interfere with the carrying out or execution of the provisions of this act, or who shall in any way, manner or form, interfere with the flag so used, or who shall deride, mar, cut, strike or mutilate the same, shall be fined in any sum not exceeding one hundred dollars, and be imprisoned twenty-one years."

"Sec. 5. All laws and parts of laws in conflict herewith are hereby repealed."

"Sec. 6. This act shall take effect and be in force from and after its passage and approval."

"a. D. Williams of the Third district of Pawnee introduced a bill to repeal the law creating the office of territorial oil inspector and abolishing this office. Mr. Williams said to the correspondent for the Eagle: "All my people are against this inspection business. It simply forces us to buy certain kinds of oil at a higher price than oil just as good can be bought at Tulsa, I. T. for instance. We want all kinds of oil brought into the territory and then we can purchase the kind we wish. I have talked with a great many people from the different parts of the territory and no one has as yet offered any defense for this office."

Thirty-nine bills have been introduced so far in the house. The following are the most important that have been given a second reading and referred to the appropriate committees:

By Nesbitt—To provide for the teaching of patriotism and morality and the protection and humane treatment of birds and domestic animals in the public schools.

By Harrison—To prohibit the killing of prairie chickens, grouse, quail, plover and dove. No season is provided, and a fine for violating amounts to \$25 or \$50.

By Bowles—To provide for appeals from the decision of city councils in allowing or disallowing claims.

By Decker—For the purpose of testing and determining the weight of wheat and the standard half bushel measure furnished the territory by the United States.

By Tuttle—To provide for primary elections in Oklahoma.

By Wilkins—To provide wage of \$1 a day for jurors before district court in addition to ten cents a mile for travel; also juror receive \$1.

By Bradwood—To provide for county clerk hire in counties of over 10,000 population.

By Edgar Jones—To make the act of a member of any public board in taking a contract let by such board an act of embezzlement.

By Nesbitt—To provide for the construction and improvement of public highways.

There are a number of bills for the increasing of the fees for jurors.

W. F. Edgar of Gosnell is here as one of the parties who will fight the division of the new counties.

The house adjourned today at five minutes till three o'clock.

There was quite a discussion as to what the press wanted. It was finally decided to let 'em hustle.

The "extra" help was instructed by Speaker Bowles that it must hide out and not tell the lobby.

On Saturday the high school class of Coyle, O. T., will visit the legislature. The house agreed today to receive them.

The employment of two more pages in the council was voted down.

LOCKJAW RESULT OF ACCIDENT

Caused Death of Young Boy at Oklahoma City.

WAS SHOT BY PLAYMATE

Took His Father's Rifle and Went Out Hunting.

Oklahoma City, O. T., Jan. 20.—A funeral occurred at No. 76 East Second street, that was extremely pathetic, says the Oklahoma City.

No. 76 is the home of Wilhelms L. Pen-dleton, contractor and builder, and the grim reaper had called for his bright little 15-year-old son, Enoch Pendleton, who died of tetanus, or lockjaw, Sunday morning at 5 o'clock.

The dread malady which caused the death of little Enoch was superinduced by a gunshot wound received at the hands of a playmate on Saturday a week ago.

Enoch, taking his father's Winchester rifle and accompanied by a little playmate named Stubbfield, went out into the country hunting. After they had been out hunting some time the rifle was given to the Stubbfield boy to carry for a time, and in some way it was accidentally discharged, the ball shattering Enoch's right leg just below the knee.

With the aid of his grief-stricken playmate, Enoch started to crawl toward town, a distance of three and a half miles. They didn't travel very far, however, as the little fellow could not bear the pain which the exertion caused him. The Stubbfield boy then sought a farm house and after telling the story of the accident and the condition of his friend, the sympathy and the latter brought the wounded boy to town.

All week he lingered along in agony, when blood poisoning set in, followed by lockjaw, and death soon ensued.

While there is no blame to be attached to the little fellow who did the shooting, the case adds emphasis to the oft-repeated warning against allowing mere children to carry firearms.

ON CONSTRUCTION WORK.

Orient Now Building Over the Salt Fork.

Cherokee, O. T., Jan. 20.—On last Wednesday a large crowd of spectators were gathered at the Salt Fork anxiously viewing the vast amount of building material and the rapid construction work of the great Orient railway at that place.

As about noon a train arrived carrying a car of eight engines from Anthony, Kan., and other points along the Orient route, and also a car of freight for the Cherokee merchants. The steam pile driver has arrived and is in operation on the river bridge. The two horse powers are also at work, one on the river and one on the first opening north of the river.

This bridge work is being pushed very rapidly. Superintendent Tuttle, of the bridge and building department stated that the bridge across Salt Fork would be completed in fifteen days, and that trains would be running into Cherokee by February 15. The business men of Cherokee have waited long and patiently for the Orient road, and it is exceedingly gratifying for them to know that what was considered only a few months ago by some wise or otherwise fellows a dream, is now realized.

During the time that Cherokee has been without a railroad she has grown steadily notwithstanding the various obstructions that have been in the way.

THEORIES ABOUT FOOD

Also a Few Facts on the Same Subjects.

We hear much nowadays about health foods and hygienic living, about vegetarianism and many other fads along the same line.

Restaurants may be found in the larger cities where no meat, poultry or coffee is served, and the food is pushed in its glory, and arguments are made as to why one should abstain from human stomachs, and almost make us believe that our sturdy ancestors who lived four score years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of health.

One breakfast had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to acorns.

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables, meat is the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegetables and grains.

Dr. Julius Remmon on this subject says: "Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets because they supply the pepsin and diastase necessary to perfect digestion, and every form of indigestion will be overcome by their use."

The large class of people who come under the head of nervous dyspepsia should eat plenty of meat and insure its proper digestion by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets composed of the natural digestive principles, pepsin, diastase, fruit acids and salts, which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures are useless for indigestion as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food and the sensible way to solve the trouble and cure the dyspepsia is to make daily use of Stuart's Dyspepsia Tablets, which are endorsed by the medical profession and known to contain active digestive principles.

A Well-Known Gentleman Makes a Remarkable Statement

He Assures Rheumatic Sufferers That One Bottle of

Paine's Celery Compound

Banished His Pains and Agonies.

The startling and happy cures wrought by Paine's Celery Compound for rheumatic sufferers have deeply impressed medical men everywhere, and today, the best practitioners are recognizing the great value of the Compound, and prescribe it with confidence.

Paine's Celery Compound stands unequalled as a cure for all the varied forms of rheumatism. At this season its good work is apparent in thousands of American homes. Men and women, lame and crippled, and utterly helpless from the terrible disease are being restored to activity, health, and strength. Paine's Celery Compound is the only medicine that rescues and saves the expiring victim who is told that he or she is incurable. Mr. L. A. Fleishman, Gas Mills, West Va., writes about his happy experience with Paine's Celery Compound:

"I had rheumatism in my left arm and shoulder, could not sleep, and had no appetite. I visited my sister who lives in Frankford, and she told me that she had been afflicted just as I was, and Paine's Celery Compound had done her more good than anything she had tried, and she advised me to use it. I got one bottle and used it, and the result was I slept well, had a good appetite, and the pains of rheumatism left me and I have not felt them since; in fact, it has cured me and I feel like a new man."

There are many ways that odd pieces of cloth may be worked into useful and decorative objects for the house.

DIAMOND DYES

Will Color Anything Any Color.

Direction book and 45 dyed samples free. DIAMOND DYES, Burlington, Vt.

Now that she has the greatest trunk line road in the west, she will continue to grow.

Those who have purchased property in Cherokee can realize double on their investments at the present time. The business men of Cherokee are broad-minded in their views, just as well as liberal in their dealings and are making Cherokee one of the best towns of Woods county. As well as encouraging industries for the development of both the town and the country.

MAKING AN INVESTIGATION.

Geological Survey Being Conducted by Interior Department.

Norman, O. T., Jan. 20.—Farmers residing within a radius of twelve miles of Ponca City will confer a great favor by communicating with J. H. King of Ponca City, regarding the depth of their wells, quality of water, quantity of supply and any peculiarity of such supply, also answers to the above questions regarding creeks in their vicinity, as well as quality and quantity of stone. Please state exact location. This information is necessary to complete the geological survey instituted by the interior department to form a basis for a government report. All previous records having been destroyed by the late fire at the Norman university. Any information on the above lines will greatly facilitate the work and be highly appreciated by Prof. Chas. N. Gould, who has personal supervision of this investigation with headquarters at Norman.

WOULD REACH THE SKY.

Four Men Whose Height Aggregates More Than Twenty-six Feet.

Blackwell, O. T., Jan. 20.—As a reporter of the News was standing in front of the Commercial club, he was asked, "How tall are you?" asked the scribe, "I'm six feet four inches high," was the reply. In a minute William Curfman put in an appearance. "What is your height?" asked the pencil pusher. "I am six feet five inches," said Mr. Curfman. It was not long till Lawrence Smith passed by. "How high are you?" asked the scribe. "I'm six feet six inches from the side of my feet to the crown of my head," said Mr. Smith. Before the reporter had time to catch his breath Clark Brady waited up. "What is your altitude?" asked the interviewer. "It's seven feet four inches from the top of my toe to the ground," came down the startling answer. The journalist did not wait for any more but fled.

WANTS FLOURING MILL.

Watonga Needs Mill Which Would Supply Community.

Watonga, O. T., Jan. 20.—Watonga wants a flouring mill and she wants it badly. For some time an effort has been made to interest capitalists in a mill. Many of the enthusiastic favor a mill with 200-barrel capacity, containing that one good mill which can compete with those of other places is preferable to two small ones.

No enterprise would be of more genuine benefit to Watonga than a flouring mill. Mills located at the neighboring towns draw much trade which rightfully belongs to the county seat. The Commercial club can do no better work than pull for a good flouring mill.

HAD NARROW ESCAPE.

Engine Struck Wagon at Crossing and Driver Was Hurt.

Shawnee, O. T., Jan. 20.—Late yesterday evening, says the Quill, Wesley Wilder, a boy about 17 years old, who is in the employ of R. F. McBride, who is feeding a lot of cattle in his pasture, was injured by the engine of the Rock Island railroad just west of the fair grounds, with the team and wagon, when an engine rapidly bore down upon the unsuspecting youth and striking the wagon squarely knocked it into smithereens and later when picked up it was found that young Wilder was quite seriously injured. Mr. McBride contacted a physician at once who went out to attend the unfortunate boy, but at a late hour last night no report of his condition had been received.

OKLAHOMA COMMITTEE IS AT WORK

Arranging for Convention Held Next Month

WHEN CATTLEMEN MEET

Every Effort Being Made to Make It Greatest.

Oklahoma City, O. T., Jan. 20.—In conversation with the committee who are soliciting subscriptions for the purpose of providing a fund to properly entertain the delegates and others that will attend the cattlemen's convention to be held in this city next month some very unpleasant truths were brought to light. A member of the committee said:

"We have been turned down absolutely by some of the hotel, restaurant and saloon men and offered trifling amounts by others. These are the very men who will reap a rich harvest from this great gathering and should be liberal in giving towards it."

"The banks, wholesale houses and retail merchants have been very liberal in their subscriptions—in fact, more has been subscribed by them than we had expected."

"Some of the saloon and restaurant men have subscribed liberally and have shown a disposition to aid the committee in its work, but it is not right nor just that a few should do the donating while so many will reap benefits."

The cattlemen's convention will be the most important event in the southwest this year and Oklahoma must do herself proud in entertaining the delegates and visitors. In order to do this an entertaining program must be arranged and carried out in such a manner as to leave a favorable impression on the visitors. We can not do this by a niggardly policy; it takes money to do these things, and a few of the public spirited citizens should not be called on to foot the entire bill.

The committee appointed by the Chamber of Commerce are composed of our best men, who are working without pay, and they should have the support of every good citizen in their work.

EATON WAS DISCHARGED.

First Case in His Favor—Another Will Be Heard.

Shawnee, O. T., Jan. 20.—The first case against D. H. Eaton, the Candy factory man, who left here a few days ago and was brought back to answer to the charge of having beaten John Pitterer out of a \$25.50 board and lodging bill came up yesterday afternoon in Justice Dodge's court, with Assistant County Attorney E. E. Hood for the prosecution and Judge W. N. Mabey representing the defendant.

The testimony was very brief and when it was all in, the case was argued by counsel at the conclusion of which the court summed up the case and promptly discharged the defendant.

There was also a charge sworn out, charging Eaton with having obtained money under false pretenses, and that will be tried today in Justice Ransom's court.

WILL GO TO WASHINGTON.

Mayor of Lawton Sent to See About Loan Fund.

Lawton, O. T., Jan. 20.—At a city-meeting of the city council, held yesterday afternoon, all members were present except Pierce, says the Enterprise. Upon motion of Alderman Turner, the body unanimously decided to send Mayor Ross to Washington, his expenses to be defrayed by the city.

His mission there will be to secure legislation for the purpose of having the lot fund turned over to the county and city for much needed improvements. Another thing he is to look after is the securing of the land east of the Rock Island tracks for a city park. Still a third matter is to see that all that can be done to have the great pasture reserve opened to settlement.

For the same purpose a member of the Commercial club, and probably one from the county commissioners, are to go to Washington.

BROTHERS MARRY SISTERS.

Frederick, O. T., Jan. 20.—One of the most unique weddings, or rather series of weddings, that has yet occurred in the new country, took place last Sunday. Two, eight miles west of here, in which two brothers married two sisters, says the Enterprise.

The first couple to be united in matrimony were Ralph E. Mitchell and Miss Coca B. Taylor. The ceremony was performed at the home of the officiating minister, Elder H. F. Tandy, at high noon. Later in the day, at the same place, Elder Tandy pronounced the wedding made by W. Mitchell and Miss Mary V. Taylor husband and wife.

The brothers have claims joining one another on which the young couples are now residing.

FELL THROUGH TRESTLE.

Blackwell Man Fell Twenty Feet and Escaped Serious Injury.

Enid, O. T., Jan. 20.—George Hines was seriously injured by an accident last Saturday. He had got off the train at the crossing of the Frisco and Rock Island roads at Enid and started to walk down the Rock Island road to the depot. It was necessary to cross a trestle some twenty feet high, and in doing so he tripped and fell to the ground below, severely injuring his leg, and preventing him from pursuing his journey. Mrs. Hines went to Enid yesterday, and Mr. Luskaby went today, for the purpose of bringing him home, if his injuries will permit.

Contracts Have Been Let

Guthrie, O. T., Jan. 20.—It is announced from Cornish, I. T., that the contract for grading the Rock Island branch from Wauwaka, O. T., to Ardmore, I. T., has been let at Wauwaka to W. B. Brown, who graded the new extension from Lawrence to Wauwaka. Work will begin this week.

This trade mark indicates purity and perfection in brewing, and has been used on more bottles than any other label in the world. Found only on the famous bottling of

Anheuser-Busch Brewing Ass'n

MAHAR SUPPLY CO., WHOLESALE DEALERS, WICHITA.

MUNROE WANTED TO BUY PRESENTS

Reason He Tackled Jeffries and Gained Fame.

TALKED ABOUT HIS PLANS

Expects Tom Sharkey Will be His First Opponent.

Brooklyn, N. Y., Jan. 20.—With bag and baggage, Jack Munroe, the man who suddenly sprang into prominence by staying four rounds with Champion Jim Jeffries, arrived in town last night. He was accompanied by Clark Bell, his manager. His arrival, which was announced, attracted a large crowd at the Grand Central station, and he was loudly cheered as the coming champion. Munroe and his manager went directly to the Grand Union hotel, where he met a crowd of newspaper men. In giving an account of his bout with Jeffries at Butte, he said:

"While working in the mines at Butte, a friend came to me one day and said that Jeffries and Fitzsimmons would soon be in town. 'They are offering any one \$100 whom they cannot stop in four rounds,' said my friend. Well, I thought that, being near Christmas, I would like to earn the \$100, and so I told my friend that when the combination came to Butte I would agree to meet Jeffries and earn the money. I quit work two days ahead and rested."

"It was the first time I had put my gloves on in two years, and I was a bit afraid that I would not acquit myself as well as I hoped to. As soon as I went against Jeffries I saw that the champion was holding me cheaply, expecting to trim me in a few rounds. He was laughing and did a lot of rushing. But I wasn't scared a wee bit, and instead of running away, just merged in. Jeffries, who, by the way, was not in the best of shape, was surprised. I remember that the first attempt I made was with my right. I shot it straight into the shoulder. Jeffries was coming toward me and the blow landed on his jugular. It was a hard one, but not as hard as I can hit, because I was only there to stay, not to knock anyone out."

"Well, when I landed, Jeffries winced and went back a few paces. When he came forward I could see that he was angry, and I expected him to sail in for me in the second. In this respect I was not mistaken, for when he came after me he pummeled me repeatedly under the heart. The blows hurt, and I took them in order to get my right eye open. I was to have broken my leg, but he was too good for me and I followed out. Near the close of the second, as well as I can remember, I nailed him with the right in the solar plexus. He was coming to me, and my punch sent him to the ropes, and in coming forward he went to his knees."

"I know then that I would not have any trouble in staying, so we mixed it up in the third, with the result that he put me down with a similar body blow. When the fight was over and the referee gave the decision to me I realized that I had done something unusual, and naturally offered him \$100 to meet him again; but I declined, for I figured that I can get more than that when we fight again."

Munroe said that Tom Sharkey would be his first opponent, and that the bout would be held in Butte, Montana, some time next June. He said that he would not do so until he had fought until that time, as he wanted to get into the best condition.

To even a casual observer, Munroe appears every inch an athlete. He is smooth shaven, with a fair complexion, and has high cheek bones. He is well built, and his legs are powerful. He speaks in a low, deliberate manner and weighs every word. He is not built on the rugged lines of Jeffries or Sharkey, but more like Gardner and Kid McLoe.

CANCER
The Kind You Have Always Bought
Purchaser of Geary Bonds Refuses to Accept Them.

Geary, O. T., Jan. 20.—The mayor and city council were greatly surprised when Mr. Cahill, the purchaser of the Geary water-works bonds, appeared on the scene and declared the bonds illegal, and they stated that upon the advice of his attorney he could not, under the present circumstances, accept them. He then demanded the \$250 forfeit money which he had deposited with the city as a guarantee that he would purchase said bonds. The city clerk refused to give up the money until Cahill should prove the illegality of the bonds to the city officials.

The technical point raised by Cahill's attorney is, that a bond must be

CANCER
